

The House of Olympia

A.K.A. Colette

Traces of Olympia...Catch Her if You Can!

Individual Conversations with Olympia (Colette) concerning Love, Money and Art, will be conferred for those seeking and able to locate the Artist, who will place clues along her path within the perimeters of SoHo. This will cost you.

Olympia will be carrying an aqua colour briefcase with the words retrieving my history written on it: it will contain precious documents and evidence of her past works.

The artist first became well known in the seventies for her street works, enigmatic codes left on the sidewalks of SoHo...Later, she would be mistaken for a mannequin in the elaborate silk environments she created in shop windows. "Her personal style and ideas were prophetic, and what was once radically shocking has now filtered into popular culture as well as art trends.."

Only serious art lovers and true seekers of truth are asked to approach Olympia.
